# Take the direct path to Meaningful Use

MISSOURI HEALTH INFORMATION  
TECHNOLOGY ASSISTANCE CENTER

*Your Answer to All Things EHR*

Toll Free 1-877-882-9933

Web site: <http://www.EHRhelp.missouri.edu>

Current electronic health record (EHRs) users are poised to become the first recipients of Medicare and Medicaid EHR incentive payments when they become meaningful users of certified EHRs. If early adopters don't act immediately, that advantage will be lost.

The Missouri Health Information Technology (MO HIT) Assistance Center will help you quickly map the most direct path to meaningful use. We will help you analyze your EHR capabilities, identify any barriers, and then identify solutions.

We will help you standardize your processes to obtain discrete data and avoid the pitfalls of multiple points of entry that don't map to outcomes reporting. We will also analyze your reports to ensure the integrity of the data, output, and the reports all meet meaningful use standards.

Our support will enable you to get the most out of your EHR system, avoid errors, and most importantly, improve health care quality and patient outcomes.

## The direct path to meaningful use of certified EHRs

## Maximize Your Benefits Act NOW

### Earn EHR Incentives

Eligible providers who become meaningful users of EHRs can earn up to \$44,000 in Medicare or up to \$63,750 in Medicaid incentives. Additional incentives are also available for hospitals. With our assistance, you'll reach each milestone sooner and maximize your incentive payments.

### A Path Just for You

MO HIT Assistance Center's extensive experience in health information technology and our expertise in meaningful use allows us to pinpoint exactly what stands between you and meaningful use. We'll make it easy to understand, easier to do, and less stressful. You'll get faster and better results.

### Subsidized Assistance

The MO HIT Assistance Center's support and services are offered at a greatly reduced cost to individuals & small group practices focused on primary care (Family Practice, Internal Medicine, OB/GYN, & Pediatrics); rural hospitals; and community and rural health centers predominantly serving uninsured, underinsured and medically underserved populations. You won't get a

better deal or a better price on the level of service and support we can offer you.
