

Healthcare Luncheon Series

A Complimentary Invitation

DATE OF EVENT:

February 2, 2012

ABOUT THIS EVENT:

11:30 AM - 1:00 PM

at

Baker University
8001 College Boulevard
Suite 100
Overland Park, KS 66210

Enterprise Bank & Trust, DataFile Technologies, Forbes Law Group, LLC and Polsinelli Shughart are pleased to bring you another event in our complimentary lunch-and-learn series.

[REGISTER TODAY](#) for the February 2nd healthcare luncheon:

Meaningful Use Measure 15 - Security Risk Analysis

Attestation for compliance with Meaningful Use Measure 15 is not simply an exercise in "checking the box." Likewise, your IT company can't simply supply you with a sheet of letterhead touting compliance. In order to satisfy the measure completely and avoid penalties from a potential CMS audit, you will need to produce a detailed, structured HIPAA Security Risk Assessment.

Join us to learn the following:

- Understand the most current 2012 Meaningful Use criteria
- Learn the specific components that encompass a HIPAA Security Risk Analysis
- Discuss common HIPAA compliance risks faced by medical practices today.
- Learn about options available to meet the Risk Analysis

Requirement.

- Understand the process associated with determining what security measures are reasonable for your practice.
- Ask a panel of experts specific questions about Meaningful Use and HIPAA Security.

Featured Presenters:

- Janine Akers, Managing Partner, DataFile Technologies
- Stacy Harper, Attorney, Forbes Law Group
